**City of Mesa Office of Economic Development launches
new guide to help businesses succeed**

Mesa, AZ – The City of Mesa Office of Economic Development has recently published the Mesa Small Business Resource Guide. The guide provides Mesa businesses and start-ups a vast array of valuable resources and contacts that will assist them in succeeding in today’s competitive business environment. The guide features information and links to free resources such as how to structure a business, regulatory issues, taxation, licensing, business counseling and more.

“The guide was designed as a one-stop shop to assist businesses in Mesa, or considering Mesa, to grow and expand as part of our economic development mission,” Jaye O’Donnell, Deputy Director, City of Mesa Office of Economic Development remarked. “Originally conceived as a source for small businesses and entrepreneurs, we have found medium to large companies benefit from the information as well.”
