Determining where to start is not always easy. If you aren't sure who to contact, or what steps to take, Mesa's Office of Economic Development is a great place to begin.

Our Economic Development staff will be happy to assist you in determining a path to start your business, expand an existing business, or find a new location. The Office of Economic Development offers businesses an ombudsmen service to assist with the City's development process, increase understanding of regulations and assess project needs. Staff can also provide introductions to other departments or additional resources.

The Office of Economic Development has services designed for both new and existing businesses – from small entrepreneurial operations to Fortune 500 firms. Services include confidential consultations, assistance with site selection, introduction to private and public sector development and real estate representatives, and acting as a resource in providing vital demographic information to assist potential new businesses with location and expansion decisions.

Mesa's Office of Economic Development actively promotes and preserves the economic strength of the city to ensure that Mesa is the preferred location for new, existing and expanding organizations.

TRANSACTION PRIVILEGE (SALES) TAX (Forms are online <https://www.mesaaz.gov/business/tax-audit/tax-information/tax-forms>) The City of Mesa imposes a privilege (sales) tax on the gross receipts from certain types of business activities. This is a tax on the "privilege" of doing business, but is often passed on the businesses' customers as "sales tax." Gross receipts generated from the following types of business activities are subject to the City of Mesa privilege tax (Note: On January 1, 2015 the State of Arizona took over tax licensing for the City of Mesa):

Taxable activities include but are not limited to the following:

- Advertising
- Amusements, exhibitions, Etc.
- Construction Contracting: Hotels & Motels
- Job Printing; Publishing & Periodical Distribution
- Renting or leasing Real Property
- Renting Tangible Personal Property; Restaurants & Bars
- Retail Sales
- Salons
- Telecommunication Service
- Use Tax

Other Taxable Activities:

Jet Fuel; Manufactured Buildings; Mining; Transporting for Hire; Timbering & Extraction; Utility Services

The application fee for a privilege (sales) tax license is \$20.

Mesa's privilege tax rate is 2 percent of the gross income generated from the various business activities less allowable deductions. Deductions vary by taxable activity. Businesses must maintain adequate records and documentation to support income and deductions. Privilege taxes are due and payable on or before the 20th of the month succeeding the period in which the tax accrues. Tax must be reported on a City of Mesa Transaction Privilege Tax and Use Tax Return.

TRANSIENT OCCUPANCY TAX

Mesa motel and hotel owner/operators also need a Transient Occupancy Tax License. The tax is 5 percent of the rate amount per room occupied per day or any portion of a day for the first 29 days.

SPECIALTY LICENSES

City of Mesa specialty licenses are required for:

- Antique dealers
- Auctioneers
- Bingo
- Fireworks
- Fortune tellers
- Liquor sales
- Massage Establishments
- Off-track Betting
- Park & Swap Operations
- Pawnbrokers
- Peddlers
- Scrap metal dealer
- Sexually-oriented Businesses
- Solicitors
- Special Events
- Teen Dance Halls
- Tent/Canopy
- Transient Merchants

Applications for these licenses can be obtained through the Licensing Office at 55 N. Center St. or at <https://www.mesaaz.gov/business/licensing>. Fingerprints and photos may be required.

LIQUOR LICENSES

The State of Arizona regulates liquor licenses. Applications are obtained from the Department of Liquor Licenses and Control, 800 W. Washington St., 5th Floor, Phoenix, AZ 85007, 602-542-5141. The State forwards a copy of your application to the City for processing. A Public Notice will be posted at the business location for 20 days, and the application will go before the City Council for consideration. The City of Mesa has 60 days from the filing date with the Department of Liquor to recommend approval or denial of the application. The City then informs the State Liquor Board of its decision. The State Liquor Board will then act upon that recommendation.

Chapter 2 – Establishing a Business

Determination of Business Structure

Your attorney or certified public accountant may best determine the most beneficial structure for your particular business. Outlines below are some of the most common forms of business structures.

- A **Sole Proprietorship** is the simplest and most common form of business organization. The creation of a business as a sole proprietorship requires no formal Arizona filing. Profits and losses are reported on a separate schedule within your personal tax return. The sole proprietor of the business may be held personally liable for the debts and obligations of the business.
- A **General Partnership** is an association of two or more persons joined together to carry on trade or business for profit and is usually formalized through preparation of a written agreement. It is not required to file your agreement with the state.
- The **Limited Partnership** has become an increasingly popular choice for business owners, especially those involved in real estate or other investment ventures. LPs can limit the liability and the involvement of certain partners.
- A **Limited Liability Partnership (LLP)** is a business owned by two or more persons and is a relatively new business structure in Arizona. Professional advice concerning this type of business should be obtained from an Arizona attorney.
- A **Limited Liability Company (LLC)** is a flexible form of enterprise that blends elements of the partnership and corporation structures. LLC owners have limited personal liability and the benefit of pass-through taxation.
- A **Foreign Corporation** is a business organized under the laws of another state or country and must be registered to conduct business in Arizona.
- A **C Corporation** is the most complex form of business structure. It is formed by law as a separate entity, distinct from the owners of the business, and has its own rights and responsibilities.
- An **S Corporation** allows you the protection of a corporation with some of the financial flexibility of a partnership and elects not to be subject to federal corporate income tax. To qualify as an S Corporation, a corporation must meet certain requirements.

It is always best to seek legal advice prior to selecting your organization type.

Registration of Business

The type of business structure you choose will determine where and how you must register your company.

Secretary of State Trademark or Trade Name Office

1700 W. Washington St., 7th Floor

Phoenix, AZ 85007

Phone: 602-542-6187, 1-800-458-8542

Email: trades@mail.sosaz.com

Website: <https://azsos.gov/business/trade-names-trademarks>

This office will issue a certificate of business or trade name for a small fee. Registering a business name is not required in Arizona but is a common business practice. These recorded fictitious names, or “Doing Business As” (DBA) titles, help avoid other businesses from using your business name in Arizona. Recording your business name requires filling out a simple form that can be obtained online from their website. On this same website, a business name search can be performed to determine if a desired name is already registered.

Something important to note is that recording the form does not protect the business name under the copyright law. An attorney can advise you regarding business name and trademark protection.

Arizona Corporation Commission

1300 W. Washington St., 1st Floor

Phoenix, AZ 85007

Phone: 602-542-3026, 1-800-345-5819

This office provides useful information on patents and trademarks. Call to request the free booklet, Basic Facts about Trademark and an application. Online access to all the tools needed to file a patent or trademark is available.

Trademark applications are very precise and it is recommended that an attorney is consulted.

Chapter 3 – Getting Started in Mesa

Development Services

Planning and Zoning

55 N. Center St.

Mesa, AZ 85201

Phone: 480-644-2385

Website: www.mesaaz.gov/planning

All property inside the Mesa City limits is zoned by the City Council in accordance with the City's Zoning Ordinance. Based on the type of business and the current zoning and condition of the specific location, you may be required to process applications through public hearings or advisory boards. Even if a business location already is properly zoned, a business owner may be required to provide certain on-site improvements such as parking, storm-water retention, paving, walls, fencing, architectural improvements and landscaping before opening a business. The Planning Division supplies information regarding these issues and hearing process procedures.

Specific requirements and process procedures can be determined and reviewed with the business owner using a preliminary plan review through the Planning Division. Appointments are required and fees may be assessed. Call the Planning Division's main number to schedule a meeting. Permit Services Center employees can answer general planning and zoning related questions or arrange a meeting with planning staff if needed.

Important Questions for the Planning Division:

- What is the Zoning on the property?
- Is my use permitted in the Zoning District?
- Is the property vacant?
- If vacant, is there an approved site plan on file that must be followed for development?
- What planning related procedures must be completed for my business to be located at this site?
- Is the site I'm considering non-conforming to current site development codes?
- Will my business at the existing location invoke current site development codes due to a change in use of the property or change in occupancy?
- If so, what will the requirements be and what is the process I must follow?
- I'm planning to some building and facade renovation, are site plan modifications and design review needed?

- I want to create a separate tract on the property for my business, what are the requirements to divide the property and create a new lot?
- Am I doing any work that would require a permit?

Important Questions for the Building Safety Division:

- What is my occupancy classification?
- What was the previous business operation at this site and what occupancy classification was held by that business?
- Does my business change the use or occupancy classification and invoke full building, fire and civil code requirements?
- Do I need construction plans and if so, do they need to be prepared by an Arizona registrant?
- Do I need any clearances from the county or state to obtain a city permit?
- Do I need to use a licensed contractor for the work being proposed?
- Does this site have any special utility, street or engineering fees that must be paid upon development?
- What are permit and impact fees and how can I obtain a City of Mesa Building Safety fee schedule
- Do I need an Occupancy Verification Permit if I am not doing any work to the site or building?
- What do I need to do if I plan to store and/or use hazardous materials?
- What do I need to do if I plan to utilize high-piled storage (i.e. over 12 feet)?

East Mesa Service Center

6935 E. Decatur St.

Mesa, AZ 85307

Phone: 480-644-4273

The City of Mesa offers an innovative customer service program to provide complete assistance to developers, contractors and the general public. The Permit Services Center provides customers with comprehensive information on a wide variety of development and construction-related issues.

For customer convenience, the Centers are located at the Municipal Building and the Building Safety Office at the East Mesa Service Center. Permit Services staff provide assistance with permit applications, utility availability, zoning regulations, occupancy issues, sign requirements, offsite improvements, fee schedules and related information. With the consolidated services offered at the Center, the need to visit multiple City departments is eliminated.

The City of Mesa designated the Permit Services Center to answer general questions about zoning, building and engineering development regulations in Mesa to make opening a business in Mesa more streamlined. For major projects, the Center's staff can arrange meetings with other city department representatives to move your plans through the process.

Each business is different, and the Permit Services Center staff can help you determine your zoning requirements, what permits are required and how to hook up utilities.

New Utility Service Lines or Meters

Municipal Center

55 N. Center. St.

Mesa, AZ 85201

Phone: 480-644-2221

East Mesa Service Center

6935 E. Decatur St.

Mesa, AZ 85207

Phone: 480-644-4273

The Permit Services Center is the contact point for all types of public works improvement information, such as City utilities and public streets.

Center staff administer and coordinate new utility installation orders, utility service relocations, leak problems and concerns about City-owned natural gas, water or sewer facilities. The staff also issues all permits and licenses for construction or work performed within public rights-of-way or easements.

Permanent utilities for new construction, remodeling projects or relocation of existing utilities: it is the responsibility of the developer to order water, sewer, and natural gas services, as needed, once the plan review process is completed and a permit is issued for development. This procedure allows ample time to install utilities before the completion of the project.

When a crew is required to install underground piping, installation occurs approximately three weeks after an order is placed. If a utility does not require underground piping, installation can normally be completed within two working days, assuming all inspection approval requirements have been met. Water meters are installed in the early stages of construction, and the contractor usually signs for and pays the bill for usage until the building is ready for occupancy. Gas and electric meters cannot be installed until the building is granted final approval.

The developer should sign for billing responsibility for all utilities (electric, gas, water, wastewater and reuse removal) upon final inspection of a building. Final approval is given when the building is completed and ready for occupancy. After the inspector approves a building and issues a release, new permanent gas or electric meters will generally be installed within two working days.

When natural gas must be turned on, a person 18 years or older needs to be present at the business location or when access to the property or meters is restricted.

Temporary water: If temporary water is needed from a fire hydrant for street work or preparation of a construction site before permanent water is available, a hydrant meter use permit can be issued. Application for a hydrant meter should be made 24 hours in advance of need.

Permits and Inspections

Municipal Building Phone: 480-644-4273

For specific code questions: 480-644-2061

East Mesa Service Center Phone: 480-644-2221

Building Safety operates a complete “one-stop shop” for all matters and permits related to construction and development within the city limits and the City of Mesa utility service areas. Applicants must obtain permits in person. Upon completion of construction and inspections for commercial developments, Certificates of Completion or Occupancy are issued. For a single residence, Building Safety releases utility meters.

City Plan Review provides one-stop convenience for all construction plan submittals, which include building, plumbing, electrical, mechanical, zoning, signage, fire and civil engineering. The review process is coordinated in-house to maximize efficiency and minimize delay.

Construction permits (private property): construction permits are issued for all new on-site construction; demolition; building alterations; remodeling and the installation or modification of electric, plumbing or mechanical systems; and fire alarm and sprinkler systems.

Current information concerning submission and review of required plans and specifications is available by phone, as well as in person. Permit fees and development impact fees are collected at the time the permit is issued.

Small projects may be reviewed and approved for a permit at the time you bring them into our offices. Others must be submitted for review and approval. Information regarding the current plan review timing may be obtained by contacting the offices. After permit approval, the field inspection staff must be contacted to schedule any required inspections.

Prior to the issuance of any new construction permits, copies of the Maricopa County Earth Moving Permit and Dust Control Plan and the Storm Water Notice of Intent must be submitted to Building Safety. Information regarding the Earth Moving Permit and Dust Control Plan can be obtained at the Maricopa County Air Quality Department by calling 602-506-6010.

Right-of-way permits: Separate off-site permits are required before construction of any work that will be performed within the public rights-of-way or a public easement, and can be obtained at the Permit Services Center located at the Building Safety Division. A Right-of-Way Permit may be required in addition to other permits and licenses for a new development. Permit and other applicable fees are collected at the time permits are issued.

Signs: Exterior advertising signs, including banners, may be installed or displayed after obtaining a sign permit. Banner signs can be displayed for up to 30 days for a grand opening. Portable signs and vehicle signs parked for advertising purposes are prohibited. Some real estate signs are exempt.

City Utilities and Services

The City of Mesa supplies water, sewer and trash/recycling services to businesses throughout the City and electric and natural gas services to certain areas. For commercial service where utility service lines and meters are existing, you must contact the Customer Service Office. To request a new service line or meter or to relocate an existing one, contact the Permit Services Center located in Building Safety Division.

Other Public Utilities

If your business receives utility service from Salt River Project or Southwest Gas Company instead of the City of Mesa, please check with those utility companies for their requirements, service areas and office locations.

Commercial Deposits

Commercial deposits are held for three consecutive years of preferred credit, with no more than one delinquent billing in each year. If a preferred credit status has been established with the City of Mesa on a current commercial account, a deposit may not be required at a new address. There are three options for placing the deposit: Cash, Non-cash and Utility bond.

- **Cash:** This account is non-interest bearing and is either refunded, applied after three consecutive years of preferred credit, or applied to the final bill when the account is closed. If the deposit exceeds the final bill, the difference will be refunded.
- **Non-cash:** This account is interest bearing and requires setting up a savings account or a Certificate of Deposit at a local bank in the name of the legal entity applying for the commercial account. You receive interest on the monies from the bank. The City of Mesa places an assignment on the Certificate of Deposit or savings account. After preferred credit status (as described above) is established, the City will release the account via a letter sent to the bank. If the account is closed within three years, a letter of release will be sent to the bank upon payment of the final bill. There is a \$5 filing fee required with this option.
- **Utility bond:** This type of deposit is secured through an insurance or bonding company. It is issued in the name of the legal entity guaranteeing payment in case of default. After preferred credit status is established for the aforementioned three-year period, the bond can be cancelled, or if required for a longer time, renewed.

The amount of deposit for all three options is determined by taking 2.5 times the highest monthly bill for the year from a comparable business to the new business. Once the utility meters are in place at the service address, next working-day service is available. If no meter is installed, Public Works Services Counter can help you with installation procedures or refer to the next section, which explains how to have one installed.

Alarm Permits

All businesses and homes with alarms must have an alarm permit, which can be obtained at Customer Service in the Municipal Building or the East Mesa Service Center. There is a one-time \$10 fee for burglar alarms and an additional \$10 fee for hold-up/panic alarms that can be paid in person at Customer Service or sent by mail. As of June 12, 2017, all new alarm permits and renewals will be charged a \$2 Technology Fee.

Fire Safety Operation Permit (FSOP)

The FSOP was established in 2007 to provide public safety personnel in Mesa with current business owner contact information, as well as to identify the operations or processes being conducted at your business. The goal is to minimize potential damage or loss of revenue to your business through quick contact with your business representative in the event of an emergency at your business. Identifying current operations at your facility also allows fire personnel the ability to respond with the appropriate resources to minimize damage caused by fire or other catastrophic events.

Every business located within Mesa city limits, excluding home-based businesses, will be required to pay the Fire Safety Operational Permit fee of \$15 and effective July 1, 2016, a \$2 Technology Fee will apply. Additional inspection fees are as follows:

Low Risk Facilities: \$153

Medium Risk Facilities: \$153

High Risk Facilities: \$255

High Risk Facilities larger than 12,000 sq. ft. \$459

The risk of a business is determined by many factors including the size complexity of the structure, the occupant load, occupant age, special processes or hazardous material use, and other factors. The Fire Department determines the risk classification for your business.

Chapter 4 – Regulatory Issues

Workers' Compensation Insurance

If you have employees, you must carry Workers' Compensation insurance at your expense. The Arizona Industrial Commission administers Workers' Compensation insurance. The purpose of the insurance is to provide medical benefits and compensation to covered employees injured in work-related accidents.

You may choose to insure your employees through the State Compensation Fund by insuring with an authorized insurance carrier or by qualifying with the Arizona Industrial Commission as a self-insurer.

Phone: 480-644-2030

Mailing Address:

PO Box 1466

Mesa, AZ 85211

Website: www.mesaaz.gov/home/showdocument?id=4536

CPTED is a crime prevention philosophy based on the theory that “proper design and effective use of the built environment can lead to the anticipation and reduction in the fear and incidence of crime, as well as an improvement in the quality of life.”

The best time to apply this philosophy is during the design phase of a project, before a building, commercial complex or neighborhood is constructed. CPTED principles are applied when the initial architectural plans are submitted to the Planning Division for approval. The preliminary plans are reviewed by a CPTED Practitioner of the Police Department who provides the applicants with comments and recommendations for a safer environment.

CPTED principles can also be applied to existing properties. If you would like a free on-site assessment or plan review to ensure your business design is the best possible for safety and security precautions, call the Mesa Police Department at the number above.

A Foreign Trade Zone (FTZ) is a secured area physically located within a country, but legally considered foreign soil for customs purposes, and therefore treated as part of international commerce. The purpose of an FTZ is to attract and promote international trade and commerce by providing a means for importers to reduce or eliminate the payment of import duties. The benefits of operating in a Foreign Trade Zone are primarily the reduction or elimination of the payment of U.S. Customs duties or excise taxes on goods imported into the United States. State legislation provides tax reductions to companies with operational facilities within FTZs or subzones. FTZ procedures are available to companies involved in extensive importing of products or components that locate at the zone and fulfill activation, U.S. Customs and FTZ Board requirements. Other companies that cannot be accommodated within the zone, and who meet eligibility requirements, may apply for subzone status.
